Every year use NEW soil especially made for containers and slow release Fertilizer"

Potting soil, is a medium in which to grow plants herbs and vegetables in a pot or other durable container.

We will custom fill your containers according to your requests or we will help you to decide what you like

We use new soil every year so you may empty the old soil onto your compost pile & wash your pots up nice & spiffy clean

All lay-a-ways must be picked up by mid June or they will be recycled. Sorry please honor our policy on this

It is also very hot in the greenhouses by this time & your wonderful creations will start to deteriorate in that heat
